DETAILED ACTION

EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

The application has been amended as follows:

In claim 19, line 1, the term "(Original)" should be replaced with the phrase "(Currently Amended)".

Reasons For Allowance

2. The following is an examiner's statement of reasons for allowance: This application teaches an ink set comprising at least two black ink compositions wherein each of the black ink compositions comprise a carbon black and a complementary colorant as the colorants. Furthermore, the at least two black ink compositions have different carbon black contents from one another (i.e. a dark black ink and a light black ink) and the complementary colorants contained in each ink are different from one another. The prior art of record generally teaches an ink set comprising a plurality of black ink compositions wherein each composition comprises carbon black and another pigment such as a cyan pigment or a combination of a cyan pigment and a magenta pigment as the colorant and the compositions are different from each other only in the

content of the carbon black and the complementary colorants but fail to teach or fairly suggest that each black ink in the set has a different complementary colorant as claimed by applicants. Accordingly, this application is allowable.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
